" Join the club, Go for your future!"

Working language: English

Summary of the project:

Nowadays, the social entrepreneurship has been acknowledged as an effective means to the end of creating new jobs, improving the standard of living and encouraging the citizens' participation in the decision making process at all levels. It can also contribute to the integration of marginal and precarious strata of the population, the creation of wealth and re-investment or making new investments in various countries across the globe.

In order to enhance the social entrepreneurship in our countries, it would be absolutely necessary to supply the young people who dream of becoming social entrepreneurs with appropriate competences, contacts and the will to launch social entrepreneurs commensurate to their own profile & the needs of their milieu.

In this context, we wish to organize a long-term project to favour the experiences' exchange and develop the competences of 24 youth workers and instructor designers who stem from 8 countries and 4 continents, so that they can come up with innovative educational methods about the social entrepreneurship and act as multipliers who will help this type of entrepreneurship to spread among the young people in their countries and elsewhere.

Our project consists of the following activities:

- 1) A 2-day transnational project meeting at Lefkas (Greece), during which the contact persons of every partner organization will be brought together in order to commonly piece together this project and determine the rules and the methods which will be applied.
- 2) A "job shadowing mobility" which will last 15 days and allow every one of the 16 youth workers including two deaf to observe the implementation of one social entrepreneurship and the related education.

Join the club, Go for your future!"

- 3) Preparation of a research work which will detect the needs of the youth of the various partners in terms of training and support opportunities about the social entrepreneurship.
- 4) A training course of 11 days in Poland, during which we will create a virtual club for young people who are would-be social entrepreneurs, which will include a Moodle platform-based online course about social entrepreneurship for the benefit of the young people with different abilities.
- 5) An experimentation of the above mentioned virtual club by the young people of the countries.
- 6) Creating a technical and pedagogical manual for exploiting the above club.
- 7) A training course of 7 days in Vietnam in order to educate the 24 direct beneficiaries into becoming E-mentors in favour of the young people who benefit from the above mentioned club.
- 8) Organization of a "carrier-day" by each partner organization, which will disseminate the results of the project in question and make the virtual club more widely known.
- 9) Implementation and updating of the club through the involvement of the 24 E-mentors & the administrator of the club.
- 10) A 2-day evaluation meeting will be held at Benin, where a cooperation strategy will be applied for the sake of the virtual club's sustainability.

Aims of the project:

The basic aims of our project are:

- To enable a group of youth workers and staff of 8 youth organizations coming from 8 countries from 4 continents to exchange and acquire knowledge, skills and competences about innovative methods for non formal education of young people to social entrepreneurship, networking, On line training, support and coaching, and building their capacity for the use of modern learning methods related to non-formal education of young people and social entrepreneurship based on virtual technology; in order to modernize their working methods and optimize their supporting role in favor of young people of different backgrounds and abilities who wish to learn and invest in social entrepreneurship.
- To promote the adoption of innovative practices in social entrepreneurship education by developing personalized and collaborative learning and networking approaches through strategic use of ICTs and open educational resources.
- Create a virtual youth club that promotes social entrepreneurship and aims to:
 - * Connect young people with their peers, who wish to become social entrepreneurs and resource persons from different countries around the world.

Join the club, Go for your future!"

- * Consolidate the networks dedicated to the promotion of social entrepreneurship among young people
- * Offering dynamic distance-based training on the theme that meets the needs of young people with personalized and sustainable support.
- * Promoting dialogue between young people and decision-makers to promote collective, sustainable and inclusive entrepreneurship in their communities.
- * Establish professional links and promote distance cooperation between young people from 4 continents who wish to engage them self in social entrepreneurship.
 - * To develop and recognize the civic, technical and entrepreneurial pedagogical skills of young members (including young people with special needs and young people with few opportunities) in order to facilitate their transition to the entrepreneurial world and optimize their empowerment and initiatives.
- * Encourage young members to become members of the youth club for social entrepreneurship", to develop their professional network, reinforce their motivation to undertake in a sustainable way and to increase their creativity in the field of social entrepreneurship.
 - Improve participation in learning and strengthen the connection between non-formal education and employability by developing a methodical innovative and sustainable training tool for assistance and service.
 - Forming a new generation of E-mentors to become able to:
 - * provide appropriate support to the members of our virtual club.
 - * update the club to meet the changing needs of its members.

Description of the concrete idea of our Youth club for future youth entrepreneurs:

Referring to our discussions during the kick off meeting and with our supporting staff & expert (Mr Sidik Lepic):

A platform provides an opportunity for young people aged 17-35 in the partner's countries to do something useful for yourself and your community, i.e. to create and realize socially innovative project, improve their professional skills, become brave leaders and eventually launch their own social business that will create jobs in our hosting countries.

Youth entrepreneur's club provides multiple benefits:

- association with other young people who are interested in the same things,
- improving the skills that are important for both private and professional life,
- financial means for the realization of socially innovative project,
- the ability to turn your passion into something into a job,
- an investment to start social business and the solution of self-employment and the employment of others,
- working with expert team

Join the club, Go for your future!"

We propose 2 programme under our youth entrepreneurship club:

- 1) Youth-E club -seed
- 2) Youth-E-club -stream

Youth E-Club-Seed is aimed for non-formal groups of youngsters who would like to run socially innovative project in their communities.

- 1) It is a project that can be implemented by an informal group and offers a new and sustainable solution for an old social problem, empowers people whose problem is solved and it does for the general good. Youth-E club -seed can supports projects in the small amount and we will teach youngsters how to find the same amount in your community.

Each interested youngster or group of youngsters are obligated to register themselves From 15 of May 2018 on Moodle platform on the link Youth-E-club -zone that will be provided in May 2018. It can be 4 courses in this project as follows:

Course I: Better society is possible. It contains two modules: 1. I have a dream; 2. Social innovations.

The aim for the course is to encourage youngsters to start "dreaming" about better society and to help them to find innovative solutions for social problems. In this course, the participants need to complete several steps and need to create a group of their peers, which will write project idea for socially innovative project for their community. If they complete their course I, they continue their journey through the project, entering course II.

Course II: Our crazy plan. It contains three modules: 1. Tournament of social innovations; 2. How to project a project; 3. My community – my responsibility.

The aim of the course is to help youngsters to address social problems on innovative way and to develop high-quality plans for actions in community.

Participants who are finished course I and formed a group of their peers (from 5 to 7 persons) are invited to come on one-day offline invent named "tournament of social innovations" where they will present their ideas of projects which aimed to solve some social problems. The evaluator team will select the best project ideas. The participants whose ideas is accepted are allowed to continue their trip through the project. The evaluator team suggest them how to develop an idea. After that, the groups are obligated to finish course II and to write on-line project application.

Once the programme team approves the project, participants are obligated to find at least half of the required funds in their communities. Those funds can be in materials, in expert work, etc...

The participants whose project is approved are continuing their journey through the course III and course IV.

In course III named My responsibility for success, participants need to finish four modules: 1. Project management science; 2. We have a problem - a great opportunity; 3. Can you hear us? 4. Money is multiplying in right hands: part I: own finances. Also, during the course III, participants need to implement their approved project idea in the community.

In course IV: Entrepreneurship and me, participants continue implementation of their projects and need to write project implementation report. Also, in order to continue their journey through the programme, they need to complete two modules of this course: 1) The spirit of social entrepreneur in you; 2) My Way.

With course IV ends project Youth E-club-seed.

The second project Youth- E-club-stream start from the course V.

At the end of Youth-Eclub-seed project (course IV) the best participants are selected to continue their journey through Youth entrepreneur's club, entering the project Youth-Eclub-stream.

There are several selection criteria for selecting participants for Youth-E-club -stream programme:

Join the club, Go for your future!"

- 1) Successful competition of Youth-E-club -seed project (four courses and project idea)
- 2) Own interest to develop idea and turn it to social business
- 3) Personal characteristics such are GRIT, Honesty, Empathy, Social Activism, Justice, Sense for Entrepreneurship, Values orientation, Professional interests (all of these are measured by surveys during M-seed phase)
- 4) Participants engagement during project implementation in community
- 5) Knowledge achieved in M-seed project

If they are selected, participants entering in Youth-Eclub -stream project where they need to develop and run their social business with the help and mentorship of their mentors, which will help them to develop business idea, develop product prototype, test the business idea and finally run the business. This is 10 months long process (from idea development to running business). All the time, participants are running through three online courses and need to complete it, in order to develop and implement their business idea. Depending of the idea, each participants got his mentor, which follow him through the process.

If the idea is feasible and there are possibilities for business to be run and to achieve the success, the project team is supporting the participant by mentorship and financially. If the idea is successfully developed and project is run, the business need to give back the part of the profit to the programme in order to support more business ideas.

All the running business become the part of Youth-E-Club, which is the club of businesses that are run by the project. The Y-E-club is supposed to be hub for further investors place and place for business cooperation between businesses.

This approach can be improved according to the needs of our youngsters and communities.

Our platform will be accessed by this link: youthclub.eu

Plan of the project:

Our program comprises 10 complementary activities which include 3 mobilities:

1- One “kick off meeting” in Lefkas, Greece, which will bring together one person of every partner organization who is charged with the project, and the staff of Solidarity Tracks. It will last 2 days, in which the following activities will take place:

- Knowing each other's & our organization.
- Discussion about the objectives and the expected results of the program in question.
- Specification of the methods of implementation, follow up, evaluation & dissemination of the results.
- Specification of the tasks of each partner for the different steps of our project.

Venue:

Join the club, Go for your future!"

Our quick meeting took place in Lefkada island.

The island of Lefkada, also called Lefkas, is the fourth largest island of the Ionian Islands, after Zakynthos, Kefalonia and Corfu. It has an area of 303 square kilometres, a coastline of 117 kilometres and a population of about 23.000 inhabitants. Lefkada is an island with a wide spiritual tradition and it's situated 378 km from Athens.

Discover the emerald island at: www.lefkada.gr
